Candidiasis (Candida Albicans)

#### Stress Management

### COMPOSITION

100 mL of solution

**POVIDONE IODÉE**

CPN

Excipients.....q.s. to 100 mL

### ADMINISTRATION

Oral Route

Drinking water administration

Oral Route

Beak

Respiratory Route

Nebulization

### PHARMACEUTICAL FORM

Oral / Nebulizing Solution for Dilution

### DOSAGE

#### Dilution & Administration

Layer Hen of 1,5 kg

Chick of 100g

KG

0.38 mL in 150 mL of water

**Prevention**

0.025 mL in 10 mL of water

0.75 mL in 150 mL of water

0.05 mL in 10 mL of water

0.25 mL in 5 mL of water (3x/d)

**Treatment**

0.02 mL in 0.3 mL of water (3x/d)

0.38 mL in 75 mL of water (2 divided doses daily)

0.025 mL in 5 mL of water (2 divided doses daily)

Treatment Duration

**3 to 5 days**

### WITHDRAWAL PERIODS

**EGGS**  
0 DAYS

**MEAT AND OFFAL**  
0 DAY

### PRESENTATIONS

Solution  
 Oral  
 Nebulizing  
 100 mL bottle  
 Box of 1 bottle

Solution  
 Oral  
 Nebulizing  
 500 mL bottle  
 Box of 1 bottle

Solution  
 Oral  
 Nebulizing  
 5 L container
